

HINIKER HIGH-PERFORMANCE TRIP-EDGE

SCOOP SNOWPLOWS

The *Ultimate Plow* for Professional Use

Move snow more efficiently with a Hiniker trip-edge Scoop plow. The unique concave shape *captures* snow, providing greater capacity, less spillage, and faster, more efficient plowing.

- **20° Fixed-angle outer ends**
- **Conventional plow weight and simplicity**
- **V-Plow capacity and efficiency**

Concave shape captures snow to efficiently clear lots and parking areas. Angles left or right for conventional plowing.

Outer end is angled forward at 50° in full left or right position, reducing high-side spillage.

High-Clearance 3-Section Trip-Edge 9-inch high pivot point provides maximum protection. Each section trips independently for smoother plowing, with less stress on the plow.

Versatile and Efficient Unique concave scoop moldboard captures and moves snow—also allows conventional angled plowing.

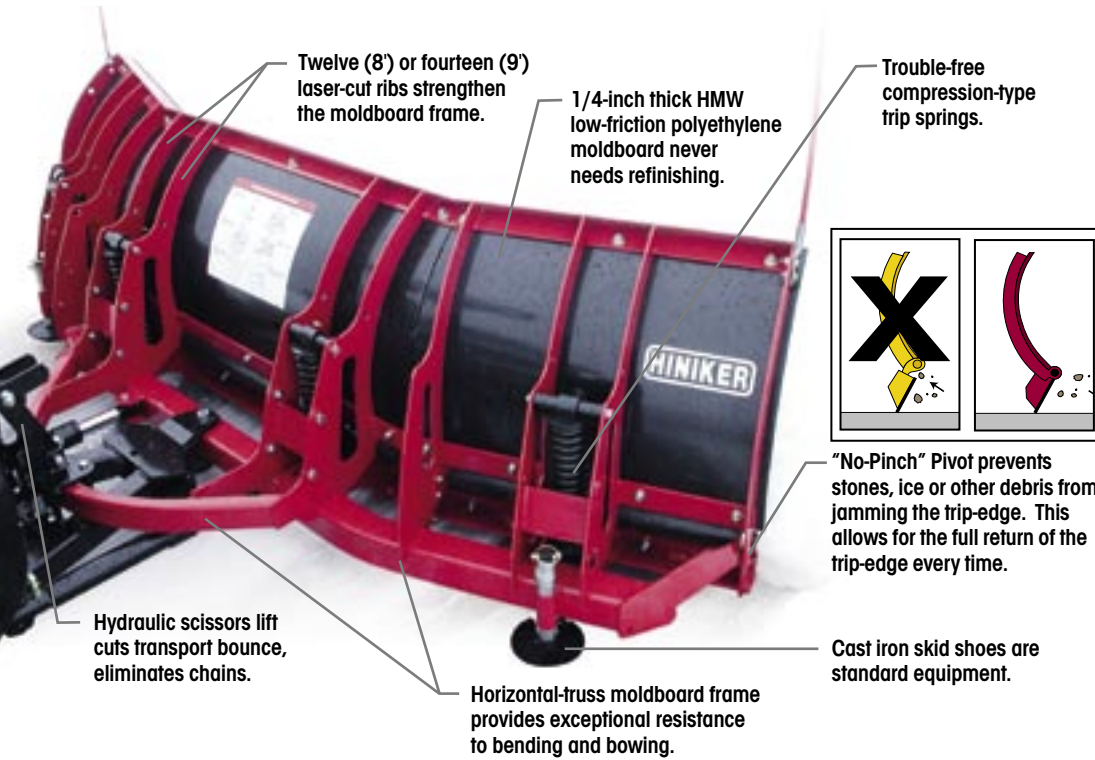

Easy to Use Controller Convenient, compact fingertip control mounts anywhere or can be hand held.

Optional Rubber Cutting Edge

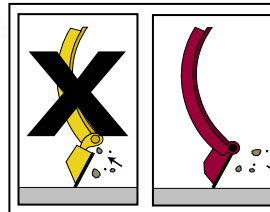

Optional Poly Snow Deflector

Twelve (8') or fourteen (9') laser-cut ribs strengthen the moldboard frame.

1/4-inch thick HMW low-friction polyethylene moldboard never needs refinishing.

Trouble-free compression-type trip springs.

"No-Pinch" Pivot prevents stones, ice or other debris from jamming the trip-edge. This allows for the full return of the trip-edge every time.

Hydraulic scissors lift cuts transport bounce, eliminates chains.

Horizontal-truss moldboard frame provides exceptional resistance to bending and bowing.

Cast iron skid shoes are standard equipment.

SCOOP PLOW *Specifications:*

BLADE WIDTH	8'	9'
BLADE HEIGHT	30"	30"
MOLDBOARD SURFACE	1/4" HMW Poly	1/4" HMW Poly
VERTICAL RIBS	12	14
COMPRESSION TRIP SPRINGS	4	4
CUTTING EDGE (HIGH CARBON 1084 STEEL)	3/8" x 6"	3/8" x 6"
POWER ANGLING RAMS	1 1/2" x 10"	1 1/2" x 10"
WEIGHT	764 lb.*	799 lb.*

* Weight net of truck-mounted hardware.

Quick Hitch MOUNTING SYSTEM

The Hiniker Quick Hitch is the fastest plow mounting system available. The self-aligning drive-in mount lets you connect your Hiniker plow in seconds. This eliminates manually lifting, pushing, and pulling the plow into place.

- 1 Drive truck forks into plow receiver
- 2 Pull lever to lock plow to truck & raise stand
- 3 Plug in connections & you're ready to roll!

Reverse the process to disconnect the entire plow assembly just as quickly, leaving it ready for the next snow.
